**Subject:** Zero ppb of Glyphosate  
**Date:** Wednesday, June 21, 2017 7:41:53 AM

---

PLEASE set our bodily limit of Glyphosate to ZERO Parts per Billion. This is NOT a safe chemical and the Guinea Pigs (humans around the world) are not starting to show the effects. California is a leader in the world on many, many topics - let's lead on this issue and remove one of the nastiest chemicals on Earth.

Californians are also extremely concerned about the health of Monarch Butterflies and all creatures. Monarch populations have been reduced by 90% since the introduction of this and other chemicals that are applied to crops.

Thank you

Sincerely,

Renelda Becker-Wade  
Los Osos, CA
